

Certification Part II

WHSC Hazard Modules

Following completion of *Certification Part I* training, joint health and safety committee (JHSC) Certification candidates are required to complete *Certification Part II* training.

This training must be approved by the Ministry of Labour’s Chief Prevention Officer and delivered by an approved provider. Training must also address at least six hazards that are relevant to the JHSC’s workplace. The hazards to be addressed by *Certification Part II* training should be discussed and selected by the JHSC.

WHSC and all our training options for *Certification Part II* have been approved. The WHSC offers more than 60 hazard-specific modules for a more customized approach (see below for more details). Each is designed to build on the knowledge gained in *Certification Part I* training and apply it to specific workplace hazards with emphasis on measures to eliminate or control exposures. As a second option to ease compliance, workplaces can enroll in one of several WHSC sector programs. These programs address hazards common to the majority of workplaces in a given sector. For a listing of our sector programs please see our product sheet entitled, *Certification Part II – WHSC Sector Programs*.

Regardless, *Certification Part II* training must also be a minimum of two days in duration. In most cases, this training must be taken within six months of *Certification Part I* training.

Certification Part II *cont'd*

WHSC Hazard Modules

Hours of Work	Power Presses
Indoor Air *	Pressurized Systems
Industrial Lasers	Propane Handling, Storage and Use
Infectious Diseases	Psychosocial Hazards and Workplace Mental Health
Isocyanates	Roadway Work
Lighting Hazards	Robotic Machinery
Lockdown: A Crisis Response	Safety Hazards
Lockout *	Solvents
Man-Made Mineral Fibres	Spray Painting
Manual Material Handling *	Stress in the Workplace
Metalworking Fluids	Transportation of Dangerous Goods*
Molten Materials and Furnace Hazards	Vehicle Driving Hazards
Mould	Vehicle Emissions
Moving Machine Parts *	Vibration
Multiple Chemical Sensitivity	Walking and Working Surfaces *
Noise *	Waste Disposal
Office Biohazards: Viruses, Moulds and Bacteria	Water and Ice Rescue
Office Layout and Design	Welding Hazards *
Office Work Environment	Work Design
Oxidizing and Reactive Agents	Work Organization
Patient Handling	Working at Heights Awareness *
Personal Protective Equipment *	Workplace Violence and Harassment **

* *Participant materials are available in French for programs marked with an asterisk. Upon request, any of our training programs are available for delivery by a French-speaking, WHSC-qualified instructor.*

** *A similar training program is available in French.*

Note: To maintain certification status, a certified member of a joint health and safety committee (JHSC) in Ontario must complete a Refresher program approved by the Ministry of Labour's Chief Prevention Officer and within three years of completing *Certification Part II* and every three years thereafter. Like all Certification Training, this Refresher program must also be delivered by an approved provider. The WHSC *Certification Refresher* training is approved and the WHSC is an approved training provider.
