

## ▶ **CERTIFICATION PART II**

# **WHSC Sector Programs**

Following completion of *Certification Part I* training, joint health and safety committee (JHSC) Certification candidates are required to complete *Certification Part II* training. This training must be approved by the Chief Prevention Officer of Ontario's Ministry of Labour, Immigration, Training and Skills Development and delivered by an approved provider. Training must also address at least six hazards that are relevant to the JHSC's workplace. The hazards to be addressed by *Certification Part II* training should be discussed and selected by the JHSC.

WHSC and all our training options for *Certification Part II* have been approved. The WHSC offers more than 40 hazard-specific modules for a more customized approach. Each is designed to build on the knowledge gained in *Certification Part I* training and apply it to specific workplace hazards with emphasis on measures to eliminate or control exposures. As a second option to ease compliance, workplaces can enroll in one of several WHSC sector programs (see below for more details). These programs address hazards common to the majority of workplaces in a given sector.

Regardless, *Certification Part II* training must also be a minimum of two days in duration. In most cases, this training must be taken within six months of *Certification Part I* training.

**WHSC offers the following sector programs.** All exceed the minimum two days of required training as experience tells us a more comprehensive program is necessary in order to properly address the significant hazards in each sector. For a complete listing of individual hazard-specific modules designed to meet *Certification Part II* training please see our product sheet entitled, *Certification Part II – WHSC Hazard Modules*.

### **CONSTRUCTION**

▶ (9 hazard modules – 3 days)

**Day 1:** Physical Hazards; Chemical Hazards; Electrical Hazards

**Day 2:** Confined Spaces; Heavy Mobile Equipment; Moving Machine Parts

**Day 3:** Ergonomics and MSDs; Manual Material Handling; Personal Protective Equipment

### **EDUCATION**

▶ (9 hazard modules – 3 days)

**Day 1:** Biological Hazards; Mould; Asbestos

**Day 2:** Indoor Air; Ergonomics and MSDs; Noise

**Day 3:** Workplace Violence and Harassment; Lockdown: A Crisis Response; Psychosocial Hazards and Workplace Mental Health

.../2

## HEALTH CARE AND SOCIAL SERVICES

▶ (9 hazard modules – 3 days)

**Day 1:** Stress in the Workplace; Infectious Diseases; Hours of Work
