WHSC WORKERS HEALTH & SAFETY CENTRE

Training for What **Matters** Most

Construction Sector Training Programs

We know our training works. More important, so do others. As Ontario's government-designated occupational health and safety (OHS) training centre, we have trained hundreds of thousands of workers, supervisors, joint health and safety committees, health and safety representatives and others over the past three decades. While our training is delivered in every sector of the economy, we also offer a complete line of programs suited for the construction sector. With more than 200 ready to deliver training programs we are well positioned to help your work site comply with the many training requirements mandated by health and safety law. Much of the training we offer can also be used for general workforce training and as part of your overall workplace due diligence strategy.

Many WHSC programs are scheduled to run at various times throughout the year in a community near you. We can also work with you to organize the delivery of one or more training programs at your work site or training facility. For those programs that do not require hands on practical training, such as Certification training and most of the hazard awareness modules, we regularly schedule many in public virtual classrooms and or we can schedule them specifically for your union or company.

Here's a partial list of OHS training essentials for those employed in the construction sector.

Meeting Specific & General Duties to Train

- Certification Part I [3 or 4 days]
- Certification Part II – Construction [18 hours]
- Chainsaw Operator [6 hours]
- Confined Space Entry in Construction [6 hours]
- Construction & Industrial Forklift Operator [9 hours]
- Construction Health and Safety Awareness [6 hours]
- Construction Rigging & Hoisting – Essentials [14.5 hours]
- Construction Rigging & Hoisting – Fundamentals [7.5 hours]
- Ergonomics: Basic Principles [6 hours]
- Fire Watch [6 hours]
- Forklift Operator [8 hours]
- Globally Harmonized WHMIS [2-3 hours] *
- Hazardous Waste [12 hours]
- Lockout (Manufacturing) [6 hours]
- Mini Excavator Operator [8 hours]
- Mobile Elevating Work Platform Operator [8 hours]
- Mobile Elevating Work Platform Operator – Refresher [4 hours]
- Propane for CH-02 ROT [6 hours]
- Propane Handling, Storage and Use [6 hours]
- Rough Terrain Forklift Operator [8 hours]
- Rough Terrain Forklift Operator – Mid-Term Evaluation [1 hour]
- Skid Steer & Mini Excavator Operator [9 hours]
- Skid Steer & Mini Excavator Operator – Refresher [6 hours]
- Skid Steer Operator [8 hours]

.../2

Supervisor Health and Safety Training [6 hours]
Suspended Access Equipment Installer & Operator [12 hours]
Suspended Access Equipment Operator [7.5 hours]
Traffic Control [6 hours]
Worker Health and Safety Awareness [3 hours]
Worker H&S Representatives – Smaller Workplaces [12 hours]
Working at Heights [6.5 hours]*
Working at Heights Refresher [4.5 hours]*
Workplace Inspections [3 hours]
Workplace Investigations [3 hours]

Hazard Awareness Training

Individual hazard awareness programs are delivered over a three hour session. When bundled, three separate programs can be delivered during a one day session. Each program is designed to satisfy the Part II Certification workplace-specific hazard training requirement, where work sites opt to take a more customized approach. Each is also suitable for general workforce training.

Asbestos
Biological Hazards
Compressed Gas
Confined Spaces
Critical Incident and Post Traumatic Stress
Documenting Health and Safety *
Electrical Hazards
Elevating Devices
EMFs and Dirty Electricity
Emergency Preparedness and Response
Ergonomics and MSDs
Ergonomic Toolbox *
Fire and Explosion
Flammables and Combustibles
Forklift Trucks
Hand Tools
Health and Safety Fundamentals
Heat and Cold Stress
Heavy Mobile Equipment
Hours of Work
Indoor Air
Infectious Diseases
Job Task Analysis
Lockout
Manual Material Handling
Moving Machine Parts
Multiple Chemical Sensitivity
Noise
Non-fit-tested Respirators – Virtual
Personal Protective Equipment
Physical Hazards
Propane
Psychosocial Hazards & Workplace Mental Health
Roadway Work
Safety Hazards
Stress in the Workplace
Transportation of Dangerous Goods
Vehicle Driving Hazards
Walking and Working Surfaces
Water and Ice Rescue
Welding Hazards
Work Organization
Working at Heights Awareness *
Workplace Violence and Harassment

For more information, program descriptions and schedules or a copy of our training catalogue visit our website, **www.whsc.on.ca** or call our toll free line from anywhere in Ontario, **1-888-869-7950**, and ask to speak to a training services representative.

* Participant materials are available in French for programs marked with an asterisk. Upon request, any of our training programs are available for delivery by a French-speaking, WHSC-qualified instructor.
